

AXSDry is a complete set of online tools and databases designed for the dry bulk shipping industry. Hundreds of operators, brokers, charterers and financial institutions save time and effort by pooling their key information in one place. Members agree they make better decisions by easily interacting data with our powerful assessment and analysis tools. AXSDry enables you to have a complete view of the dry bulk shipping market – without having to sort through thousands of e-mails, or manage multiple programs on your desktop.

What's New?

AXSMarine will release in the 4th quarter some MSOutlook tools to ease the update of messages into the AXSMarine system if you are using an MSOutlook client. You may direct access to your AXSMarine database from an MSN Messenger chat window!

Did you know?

In June 2007, over **75,000 individual forward vessel positions** were updated into our database. The majority were updated privately; the rest were shared between subscribing companies with established business relationships.

Inside AXSDry

Voyage Calculator

Our very popular tool is currently being upgraded to incorporate the newest technology and to accommodate user-requested changes and improvements. If you have any specific requirements you'd like to see taken into consideration, please let us know soon!

Port Library

Information on over 85 DAs and 80 berths have been added or updated since the beginning of May. Remember to use the "Missing Info" button to alert us to any requests for information that is not present or not up to date.

Brokers: In Brief

Did you know that our system maybe used in part or entirely?

- Use it to securely manage all of your chartering activity needs.
- Manage vessel positions and comments, fixtures, cargo orders, T/C & freight estimations or comparisons, freight matrices, calculate distances, port DA and restrictions, Baltic indices, vessel technical database, private vessel info.
- Centralise the information used by your offices and teams.
- And starting in 4th quarter 2007, you will be able to update messages into AXSMarine directly from MSOutlook.

Tips and Tricks

Customize your menu options: AXSDry has a lot of options – which can be a bit confusing. If you wish to limit those options to the ones you use, just contact us! We will simplify things for you.

Take advantage of AXSMarine's **updating service**, a secure and efficient way to avoid reading hundreds or thousands of e-mails related to Tonnage or Cargoes. AXSMarine will transfer your mails into a private searchable and sortable database. Contact us for details!
