For Immediate Release – February 1, 2008

## AXS-Alphaliner unveils new logo

*New look accompanies release of state-of-the-art 2.0 version of service*

**Paris, France, February 1, 2008** – AXSMarine, provider of online databases, reference guides and tools enabling shipping industry professionals to transform raw data into useful, searchable, easily manageable information, **has unveiled a new landmark for their AXS-Alphaliner interactive platform.**

The launch of the clean, modern landmark for AXS-Alphaliner, AXSMarine's offer for liner shipping professionals, is being timed to coincide with the release of a new and vastly improved 2.0 version of the interactive platform.

The logo was designed by O'Communication (Paris, France).

For further information about AXS-Alphaliner 2.0, please contact AXSMarine.

### **About AXSMarine**

AXSMarine produces a complete set of interactive, Internet-based decision-making tools and databases for shipping industry professionals. AXSMarine online tools are secure, fast and easy to use, and the databases they source are always up to date. Because they are Internet based, services are available from any computer, anywhere; there is nothing to download or install.

With AXSMarine, shipping industry professionals can transform a massive overload of raw data into useful, searchable information. As a result, they can work faster, manage more efficiently and plan better.
