

Product Information Sheet

Vessel descriptions

The 2008 addition to AXSMarine's suite of products. Encompassing the latest web technologies AXSS&P is the ideal next generation software-as-a-service application and database for ship brokers engaged in the Sale & Purchase business.

Interactivity

- Hyperlinks will allow you to go further in details into ships specificities
- From description you can change ships status as 'for sale' and be able then to find it under '**sales**' tab
- Link to 3rd party information (i.e. Equasis, LR-Fairplay, Clarksons Newbuildings)
- Link to parent owning/operating company

Functionalities

-  Save Update your own description specifications, details and comments on private basis
-  Files Attach files to one ship: descriptions, reports, plans...
-  Export Export descriptions and details into several formats
-  From a result list of vessels, navigate from one description to another
